Please note; this contingency plan is so you have all the information in one place should you be unable to support the person you care for during the Coronavirus Covid-19 pandemic. Any support provided may incur a financial cost.

It may also be useful to give to medical staff to inform them of the support required should the person you support be admitted to hospital.

At the end of this pandemic you may want to consider having a carer's assessment to establish if you are eligible to join the 'Carers in Crisis' emergency back-up scheme.

If you would like to take this option call the Carers Support Service on 01202 128787.
